

# Family Freeway Pension Managed Fund **Factsheet**

## Where Is The Fund Invested?

The Family Freeway Pension Managed Fund aims to achieve long-term growth, while spreading risk across a wide range of investments. It invests mainly in both UK and overseas shares, along with fixed interest investments and property. It may also invest in alternative investments, money market instruments and cash. The Freeway Pension Managed Fund may achieve this by investing in one or more other funds.

## What Are The Risks?

We invest in stocks and shares because we believe there is good potential for growth over the long-term. However, there is no guarantee that this will happen and the value of the investment can fall as well as rise. This means that it is possible to get back less than has been paid in.

## Further Information

More information can be found in the document "How we manage our unit-linked funds". This document is only available in English and can be obtained free of charge on our website [onefamily.com](http://onefamily.com) or by contacting us.

You can find the current unit price on our website at [onefamily.com/daily-prices](http://onefamily.com/daily-prices).

When you invest with OneFamily, your money buys units or shares in one or more funds. The purpose of this factsheet is to give you information to help you understand how the investment works. If there are any terms you do not understand, please see our "Useful definitions" document, which is available on the fund factsheet section of our website at [onefamily.com](http://onefamily.com).
